# CONTENTS

Volume 71

**Number 1** **January 1993**

**Eissenstat, D. M., Graham, J. H., Syvertsen, J. P. and Drouillard, D. L.** Carbon Economy of Sour Orange in Relation to Mycorrhizal Colonization and Phosphorus Status 1

**Misra S., Attree, S. M., Leal, I. and Fowke, L. C.** Effect of Abscisic Acid, Osmoticum, and Desiccation on Synthesis of Storage Proteins during the Development of White Spruce Somatic Embryos 11

**Gleeson, S. K.** Optimization of Tissue Nitrogen and Root–Shoot Allocation 23

**Niklas, K. J.** Testing 'Economy in Design' in Plants: are the Petioles and Rachises of Leaves 'Designed' According to the Principle of Uniform Strength? 33

**Werker, E., Putievsky, E., Ravid, U., Dudai, N. and Katzir, I.** Glandular Hairs and Essential Oil in Developing Leaves of *Ocimum basilicum* L. (Lamiaceae) 43

**Fitzgerald, M. A., Calder, D. M. and Knox, R. B.** Character States of Development and Initiation of Cohesion between Compound Pollen Grains of *Acacia paradoxa* 51

**Gould, K. S.** Leaf Heteroblasty in *Pseudopanax crassifolius*: Functional Significance of Leaf Morphology and Anatomy 61

**Oti-Boateng, C. and Silsbury, J. H.** The Effects of Exogenous Amino Acid on Acetylene Reduction Activity of *Vicia faba* L. cv. Fiord 71

**Bagnall, D. J.** Light Quality and Vernalization Interact in Controlling Late Flowering in *Arabidopsis* Ecotypes and Mutants 75

**Iannetta, P. P. M., James, E. K., McHardy, P. D., Sprent, J. I. and Minchin, F. R.** An ELISA Procedure for Quantification of Relative Amounts of Intercellular Glycoprotein in Legume Nodules 85

**Book Reviews** 91

**Erratum** 95

**Number 2** **February 1993**

**Jordaan, A. and Kruger, H.** Pollen Wall Ontogeny of *Felicia muricata* (Asteraceae: Astereae) 97

**Tompsett, P. B. and Pritchard, H. W.** Water Status Changes During Development in Relation to the Germination and Desiccation Tolerance of *Aesculus hippocastanum* L. Seeds 107

**Lemon, C. W. and Considine, J. A.** Anatomy and Histochemistry of the Root System of the Kiwifruit Vine, *Actinidia deliciosa* var. *deliciosa* 117

**Sutherland, R. A. and Benjamin, L. R.** The Influence of the Arrangement of Neighbours on the Spatial Component of Resource Capture by an Individual Plant in Even-aged Monocultures 131

**Berninger, F. and Hari, P.** Optimal Regulation of Gas Exchange: Evidence from Field Data 135

**Christensen-Dean, G. A. and Moore, R.** Development of Chlorenchyma and Window Tissue in Leaves of *Peperomia columella* 141
**Dewar, R. C.** A Mechanistic Analysis of Self-thinning in Terms of the Carbon Balance of Trees 147
**Tirlapur, U. K., Van Went, J. L. and Cresti, M.** Visualization of Membrane Calcium and Calmodulin in Embryo Sacs *in situ* and Isolated from *Petunia hybrida* L. and *Nicotiana tabacum* L. 161
**Guardiola, J. L., Barrés, M. T., Albert, C. and García-Luis, A.** Effects of Exogenous Growth Regulators on Fruit Development in *Citrus unshiu* 169
**Hudák, J., Walles, B. and Vennigerholz, F.** The Transmitting Tissue in *Brugmansia suaveolens* L.: Ultrastructure of the Stylar Transmitting Tissue 177
**Book Reviews** 187

**Number 3** **March 1993**
**Mosjidis, C. O'H., Peterson, C. M., Truelove, B. and Dute, R. R.** Stimulation of Pod and Ovule Growth of Soybean, *Glycine max* (L.) Merr. by 6-Benzylaminopurine 193
**Tang, C., Kuo, J., Longnecker, N. E., Thomson, C. J. and Robson, A. D.** High pH Causes Disintegration of the Root Surface in *Lupinus angustifolius* L. 201
**Hand, D. W., Wilson, J. W. and Acock, B.** Effects of Light and $CO_2$ on Net Photosynthesis Rates of Stands of *Aubergine* and *Amaranthus* 209
**Geburek, T.** Are Genes Randomly Distributed Over Space in Mature Populations of Sugar Maple (*Acer saccharum* Marsh.)? 217
**Prasad, T. K., Li, X., Abdel-Rahman, A. M., Hosokawa, Z., Cloud, N. P., LaMotte, C. E. and Cline, M. G.** Does Auxin Play a Role in the Release of Apical Dominance by Shoot Inversion in *Ipomoea nil?* 223
**Beerling, D. J. and Chaloner, W. G.** The Impact of Atmospheric $CO_2$ and Temperature Change on Stomatal Density: Observations from *Quercus robur* Lammas Leaves 231
**Sachs, T., Novoplansky, N. and Kagan, M. L.** Variable Development and Cellular Patterning in the Epidermis of *Ruscus hypoglossum* 237
**Vemmos, S. N. and Goldwin, G. K.** Stomatal and Chlorophyll Distribution of Cox's Orange Pippin Apple Flowers Relative to Other Cluster Parts 245
**Zobel, A. M. and March, R. E.** Autofluorescence Reveals Different Histological Localizations of Furanocoumarins in Fruits of Some Umbelliferae and Leguminosae 251
**Tyteca, D. and Dufrêne, M.** On the Use of Distances in the Taxonomic Study of Critical Plant Groups—Case Studies of Western European Orchidaceae 257
**Fujimori, N. and Ashihara, H.** Biosynthesis of Caffeine in Flower Buds of *Camellia sinensis* 279
**Book Review** 285
**Reviewers for 1992** 287

**Number 4** **April 1993**

**Raemakers, C. J. J. M., Amati, M., Staritsky, G., Jacobsen, E. and Visser, R. G. F.** Cyclic Somatic Embryogenesis and Plant Regeneration in Cassava 289

**Tyler, G.** Soil Solution Chemistry Controlling the Field Distribution of *Melica ciliata* L. 295

**Li, X., Feng, Y. and Boersma, L.** Comparison of Osmotic Adjustment Responses to Water and Temperature Stresses in Spring Wheat and Sudangrass 303

**Clark, C. J. and Ledgard, S. F.** Uptake of $^{15}N$ by Kiwifruit Vines from Applications of Nitrogen Fertilizer Prior to Budbreak 311

**Borrell, A. K., Incoll, L. D. and Dalling, M. J.** The Influence of the $Rht_1$ and $Rht_2$ Alleles on the Deposition and Use of Stem Reserves in Wheat 317

**McCully, M. E. and Mallett, J. E.** The Branch Roots of *Zea*. 3, Vascular Connections and Bridges for Nutrient Recycling 327

**Turner, I. M., Choong, M. F., Tan, H. T. W. and Lucas, P. W.** How Tough are Sclerophylls? 343

**Polley, H. W., Johnson, H. B., Mayeux, H. S. and Malone, S. R.** Physiology and Growth of Wheat Across a Subambient Carbon Dioxide Gradient 347

**Hunt, R. and Constable, G. M.** Multifactorial Growth Responses in *Holcus lanatus*: Optima and Limiting Factors 357

**Pagès, L., Kervella, J. and Chadoeuf, J.** Development of the Root System of Young Peach Trees (*Prunus persica* L. Batsch): A Morphometrical Analysis 369

**Busso, C. A., Boo, R. M. and Pelaez, D. V.** Fire Effects on Bud Viability and Growth of *Stipa tenuis* in Semiarid Argentina 377

**Number 5** **May 1993**

**Barlow, P. W., Parker, J. S., Butler, R. and Brain, P.** Gravitropism of Primary Roots of *Zea mays* L. at Different Displacement Angles 383

**Collinson, S. T., Summerfield, R. J., Ellis, R. H. and Roberts, E. H.** Durations of the Photoperiod-sensitive and Photoperiod-insensitive Phases of Development to Flowering in Four Cultivars of Soyabean [*Glycine max* (L.) Merrill] 389

**Barciela, J. and Vieitez, A. M.** Anatomical Sequence and Morphometric Analysis during Somatic Embryogenesis on Cultured Cotyledon Explants of *Camellia japonica* L. 395

**Farrant, J. M., Berjak, P. and Pammenter, N. W.** Studies on the Development of the Desiccation-sensitive (Recalcitrant) Seeds of *Avicennia marina* (Forssk.) Vierh.: The Acquisition of Germinability and Response to Storage and Dehydration 405

**Ganguli, S. and Sen-Mandi, S.** Effects of Ageing on Amylase Activity and Scutellar Cell Structure during Imbibition in Wheat Seed 411

**Biradar, D. P., Rayburn, L. A. and Bullock, D. G.** Endopolyploidy in Diploid and Tetraploid Maize (*Zea mays* L.) 417

**Junttila, O. and Robberecht, R.** The Influence of Season and Phenology

on Freezing Tolerance in *Silene acaulis* L., a Subarctic and Arctic Cushion Plant of Circumpolar Distribution 423
**Wiedenroth, E.-M. and Jackson, M. B.** Depletion of Oxygen in Roots of Wheat and Maize by Respiration Following Encasement in Olive Oil 427
**Beerling, D. J. and Chaloner, W. G.** Stomatal Density Responses of Egyptian *Olea europaea* L. Leaves to $CO_2$ Change Since 1327 BC 431
**Chow, Y. N., Selby, C., Fraser, T. W. and Harvey, B. M. R.** Basal Plate Tissue in *Narcissus* Bulbs and in Shoot Clump Cultures: Its Structure and Role in Organogenic Potential of Single Leaf Cultures 437
**Linnemann, A. R.** Phenological Development in Bambara Groundnut (*Vigna subterranea*) at Constant Exposure to Photoperiods of 10 to 16 h 445
**Habib, R., Millard, P. and Proe, M. F.** Modelling the Seasonal Nitrogen Partitioning in Young Sycamore (*Acer pseudoplatanus*) Trees in Relation to Nitrogen Supply 453
**Sharma, K. K., Yeung, E. C. and Thorpe, T. A.** Histology of Shoot Bud Ontogeny from Seedling Root Segments of *Brassica napus* L. 461
**Brown, D. H. and Avalos, A.** The Role of Calcium in Intracellular Cadmium Uptake by the Lichen *Peltigera membranacea* 467
**Book Reviews** 475

**Number 6** **June 1993**
**Maluszynska, J. and Heslop-Harrison, J. S.** Molecular Cytogenetics of the Genus *Arabidopsis*: *In situ* Localization of rDNA Sites, Chromosome Numbers and Diversity in Centromeric Heterochromatin 479
**Lahiri, K., Chattopadhyay, S., Chatterjee, S. and Ghosh, B.** Biochemical Changes in Nodules of *Vigna mungo* (L.) During Vegetative and Reproductive Stages of Plant Growth in the Field 485
**Osawa, A.** Effects of Mechanical Stresses and Photosynthetic Production on Stem Form Development of *Populus maximowiczii* 489
**Hocking, P. J.** Seasonal Dynamics of the Accumulation, Distribution and Redistribution of Dry Matter and Mineral Nutrients in a Weedy Species of Gladiolus (*Gladiolus caryophyllaceus*) 495
**Steeves, T., Hicks, G., Steeves, M. and Retallack, B.** Leaf Determination in the Fern *Osmunda cinnamomea* — A Reinvestigation 511
**Krikorian, A. D., Irizarry, H., Cronauer-Mitra, S. S. and Rivera, E.** Clonal Fidelity and Variation in Plantain (*Musa* AAB) Regenerated from Vegetative Stem and Floral Axis Tips *in vitro* 519
**Lamont, B. B.** Injury-induced Cyanogenesis in Vegetative and Reproductive Parts of Two *Grevillea* Species and their F1 Hybrid 537
**Blanke, M. M. and Lovatt, C. J.** Anatomy and Transpiration of the Avocado Inflorescence 543
**Newson, R. B., Parker, J. S. and Barlow, P. W.** Are Lateral Roots of Tomato Spaced by Multiples of a Fundamental Distance? 549
**Evensen, K. B., Page, A. M. and Stead, A. D.** Anatomy of Ethylene-induced Petal Abscission in *Pelargonium* × *hortorum* 559
**Book Reviews** 567
